## **DETAILED ACTION**

### ***Claim Objections***

Claims 15-18 are objected to under 37 CFR 1.75(c) as being in improper form because of multiple dependent claim 15. See MPEP § 608.01(n).

Claim 3 is objected to because of the following informalities: The abbreviations “EGF, IGF, FGF, TGF- $\beta$ , PDGF and BMP should all be expanded in their first occurrence in the claims. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 20-22 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the term “preferably” renders the claim indefinite. The claim has limitations in parenthesis. It is not clear if these limitations are part of the claim. If they are part of the claim, the parenthesis should be removed. In the recitation numbered (2), the claim ends in a period and another recitation appears which is incomplete. This also renders the claim indefinite.

In claim 5, the term “several” renders the claim indefinite.

In claims 13 and 18 it is not clear if the term “polylactide-co-glycolide” refers to a copolymer of polylactic acid and polyglycolic acid. Clarification is needed.

In claims 14 and 18 it is not clear what “tricalcic” means.

In claim 15 the recitation “as defined in any one of claims 1 to 4” lacks antecedent basis since the growth factors are defined only in claims 3 and 4.

In claim 19 it is not clear if “in the presence of” means actually crosslinking. It is also not clear if it is the dextran derivative or the composite that is being crosslinked.

Claims 20-22 provide for the use of a solid biomaterial, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

In claim 23, it is not clear what “functionalized prosthesis” means.

Claims which are dependent on base claims, which are indefinite, are also rendered indefinite.
